PROFESSIONAL SUMMARY

Aspiring **Data Analyst** and **Data Engineer** with hands-on experience in **Python**, **SQL**, **Excel**, and **Power BI** for transforming raw data into actionable business insights. Skilled in **Exploratory Data Analysis (EDA)**, **Statistical Analysis**, **Hypothesis Testing**, **Data Cleaning**, and **Dashboard Development** to support data-driven decision making. Experienced in building end-to-end analytics pipelines and BI reporting solutions that automate KPI tracking and surface business trends. Also skilled in **Generative AI** and **Machine Learning** (LangChain, RAG pipelines) for enhancing analytical workflows.

EDUCATION

- | | |
|--|---|
| Indian Institute of Information Technology, Una
<i>B.Tech, Electronics & Communication Engineering</i> | <i>Jul 2023 – Jul 2027</i>
CGPA: 7.74/10 |
| Delhi Model Public School, Delhi
<i>Class XII (CBSE)</i> | <i>Jun 2022</i>
Score: 85% |

PROJECT EXPERIENCE

- | | |
|--|---|
| DataForge – AI-Powered Data Science & Business Analytics Platform
<i>Python Streamlit Pandas Plotly Scikit-learn SHAP LangChain Google Gemini</i> | <i>Mar 2026 – Jun 2026</i>
Github Live |
| – Built an end-to-end analytics platform automating EDA, statistical hypothesis testing, feature engineering, AutoML, and business intelligence reporting workflows. | |
| – Developed an AI-powered analytics assistant (LangChain + Google Gemini) enabling natural language queries, automated insight generation, and executive-ready business recommendations. | |
| – Implemented automated hypothesis testing (t-test, ANOVA, Chi-Square) and interactive KPI dashboards with Plotly for data-driven decision-making and trend analysis. | |
| – Trained and compared multiple ML models with AutoML , using Explainable AI (SHAP) to surface the key business drivers behind each prediction. | |
| – Automated executive-ready PDF report generation by consolidating statistical findings, visualizations, model performance, and AI-generated insights into a single downloadable report. | |
| FNP Sales Analysis – E-Commerce BI Dashboard
<i>Excel SQL Pivot Charts Data Validation Business Intelligence Reporting</i> | <i>Jul 2025 – Sep 2025</i>
Github |
| – Designed an interactive BI dashboard tracking 1,000+ customer orders worth Rs.35+ lakhs in GMV, enabling real-time KPI monitoring across operations and marketing teams. | |
| – Performed multi-dimensional sales analysis across occasion types , product categories , delivery geographies , and time-of-day patterns using Excel, dynamic slicers, Pivot Charts, and SQL window functions . | |
| – Uncovered that top-3 occasion categories (Anniversaries, Birthdays, Raksha Bandhan) drove 68%+ of total revenue – enabling data-backed inventory planning and campaign decisions. | |
| InterviewBot – AI-Powered Interview Preparation Platform
<i>FastAPI LangChain LangGraph Google Gemini ChromaDB MongoDB Docker React</i> | <i>Jan 2025 – NOV 2025</i>
Github Live |
| – Architected an end-to-end AI interview platform using LangGraph state machines for multi-turn conversation flows – supporting Normal Chat, Interview Setup, and Contextual Help modes. | |
| – Implemented a RAG pipeline with ChromaDB vector store and Sentence Transformers for personalized question generation from parsed PDF/DOCX resumes via LangChain. | |
| – Built an MCQ test engine and mock interview module with a JWT-secured FastAPI backend , Dockerized deployment , and async MongoDB storage. | |
| – Auto-generated PDF performance reports via ReportLab and deployed the platform to production on Render and Vercel. | |

TECHNICAL SKILLS

- Data Analysis & BI:** Excel (Advanced), Power BI, Exploratory Data Analysis (EDA), Statistical Analysis, Hypothesis Testing, Data Cleaning, KPI Development, Dashboard Design, Business Intelligence Reporting.
- SQL:** Joins, Window Functions, CTEs, Subqueries, Aggregations, Stored Procedures, Indexing, Query Optimization.
- Excel Expertise:** VLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, Pivot Tables, Pivot Charts, Slicers.
- Programming:** Python, SQL, Matlab.
- Libraries:** Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib, Seaborn, Streamlit, Sentence Transformers.
- Backend & Deployment:** FastAPI, MongoDB, PostgreSQL, ChromaDB.
- Machine Learning & AI:** Machine Learning, Deep Learning, NLP, Transformers, Feature Engineering, Cross Validation, Hyperparameter Tuning, Generative AI, LangChain, RAG Pipelines.
- Coursework:** Machine Learning, Probability & Statistics, Linear Algebra.

ACTIVITIES & CERTIFICATIONS

- | | |
|---|-----------------------|
| Active Member , AAVESH Technical Club, IIIT Una | <i>2023 – Present</i> |
| Active Member , EUNOIA Literature Club, IIIT Una | <i>2023 – Present</i> |
| Languages , Hindi (Native), English (Proficient) | |
| Key Skills , Data Cleaning, Dashboard Design & Storytelling, Business Intelligence Reporting | |
